Fourth Quarter 2024

SAFE HARBOR STATEMENT

Please note that the information provided in this presentation is accurate as of the date of the original presentation. The presentation will remain posted on this website from one to twelve months following the initial presentation, but content will not be updated to reflect new information that may become available after the original presentation posting. The presentation contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended ("Securities Act"), Section 21E of the Securities Exchange Act of 1934, as amended ("Exchange Act"), and the Private Securities Litigation-Reform Act of 1995. Such forward-looking statements only speak as of the date of this report and Curtiss-Wright Corporation assumes no obligation to update the information included in this report. Such forward-looking statements include, among other things, management's estimates of future performance, revenue, earnings, and free cash flow estimates, our management's growth projections, our management's ability to integrate our acquisitions and execute on our acquisition strategy, and management's ability to produce consistent operating improvements. These forward-looking statements are based on expectations as of the time the statements were made only, and are subject to a number of risks and uncertainties which could cause us to fail to achieve our then-current financial projections and other expectations, including the impact of a global pandemic or national epidemic.

This presentation also includes certain non-GAAP financial measures with reconciliations to GAAP financial measures being made available in the earnings release and this presentation that are posted to our website and furnished with the SEC. We undertake no duty to update this information. More information about potential factors that could affect our business and financial results is included in our filings with the Securities and Exchange Commission, including our Annual Reports on Form 10-K and Quarterly Reports on Form 10-Q, including, among other sections, under the captions, "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations," which is on file with the SEC and available at the SEC's website at www.sec.gov.

WHY WE WIN | KEY DIFFERENTIATORS

Strong Domain Expertise

Managing and designing to meet customer needs and reduce risks

Decades of Knowledge Transfer

Since inception in major markets

Long-standing Customer Relationships

Deeply embedded in workflows

Highly Engaged Culture

Dedicated to integrity, excellence, and innovation

Global Footprint

Engineering, sales, support, and manufacturing

Unique Innovative Solutions

High IP to enhance safety, reliability, and performance

Innovation and Collaboration Across the Portfolio

PIVOT TO GROWTH STRATEGY FOR LONG-TERM PROFITABLE GROWTH

Maximizing Revenue And Operating Income Growth For Our Shareholders

STRONG FOUNDATION AND EXECUTION

2021 Investor Day Key Messages

- ✓ **Pivot to Growth**, both organic and inorganic; reinvesting into the business to fuel the innovation engine; disciplined and strategic approach to M&A while maintaining top-quartile performance
- ✓ **Deepen and Expand Customer Relationships** through world-class execution by supplying innovative, mission-critical technologies and driving one face to the customer
- ✓ **Advance the One Curtiss-Wright Vision** through the uniform deployment of the new Operational Growth Platform (OGP)
- ✓ **Simplify Business Model** for improved transparency, communication, and portfolio synergies to unlock shareholder value

Delivered on Targets

Target	Actual ¹
5-10% Total Revenue CAGR (3-5% Organic)	✓ Total 7.4% CAGR ✓ Organic 4.7% CAGR
Operating Income Growth > Revenue Growth	✓ 9.6% CAGR
Top Quartile Margin Performance	✓ 17.4% Op. Margin +110 bps since 2020
≥ 10% Adj. EPS CAGR	✓ 12.5% CAGR
> 110% Free Cash Flow Conversion	✓ 108% Average FCF Conversion

Building Momentum through the Execution of Our Pivot to Growth Strategy

BUILDING SYSTEMS AND INFRASTRUCTURE TO ENABLE ORGANIC GROWTH

Building out our operational growth platform for long term success

Innovation and R&D

Digital Transformation

Manufacturing Operations

Systems Implementation

Fueling Competitive Advantage through Innovation, Research and Development

- **Collaborative Innovation platform** captures the brilliance of the enterprise and empowers teammates to make a difference
- **Systems and Processes ensure strategic alignment**, measured incremental investments, analytical rigor, and a celebration of learning regardless of outcome; Rigorous stage gate review process across the corporation
- **Data analytics enable strategic shifts of R&D investment** to build for tomorrow by feeding high growth lines-of-business
- **Portfolio management** focused on R&D intensity, velocity, and efficiency drives improvement in pipeline; **increased ideas in the funnel** with more unique opportunities

Executing the Next Phase of Our Journey as We Modernize Tools and Systems to Drive Profitable Growth

PROACTIVELY CAPTURING KEY SECULAR GROWTH TRENDS

	Naval shipbuilding to accelerate over the next decade	High-tech battlefield advancement driving larger spending within global defense budgets	Shift to carbon-free energy & energy independence promotes need for nuclear innovation and safety, and advanced products to enhance plant efficiency and reliability	Move to electrification across a broad range of air, land, and sea platforms
Portfolio Positioned to Capture Opportunities				
Near-term (1-3 years)	Multiple single source Naval Defense platforms; Ramp up in Columbia submarine production	Defense Electronics solutions enabling modernizations of platforms	Commercial Nuclear aftermarket solutions enabling plant life extensions	Increasing on/off highway large electric platforms and electric automation
Medium-term (3-5 years)	Increased content on foreign platforms and development of next-gen platforms	Cybersecurity solutions enabling a safe and secure connected battlefield	Critical solutions addressing large light water reactor needs (AP1000)	Leverage ramp in production on key Commercial Aerospace platforms to expand presence (electro-mechanical actuation, sensors on engines)
Long-term (5-10+ years)	Next-gen defense platforms and international opportunities	Digital convergence to support defense applications	Continued development of Small Modular Reactors (SMRs)	Advanced air mobility

Building on Established Critical Leadership Positions

DEFENSE MARKETS

PROVEN ABILITY TO LEVERAGE GROWTH IN GLOBAL DEFENSE SPENDING

STRONG & DEFENSIBLE MARKET POSITION

LT Visibility Across Key Platforms

*Ford-class Aircraft Carrier,
Columbia-class, Virginia-class and
SSN(X) Submarines, F-35 Fighter Jet*

Defense Electronics Well-insulated

*Trusted on >400 Platforms and
>3,000 Programs Worldwide*

**Numerous Sole Source
Positions and Strong IP
Content** Across Portfolio

ALIGNED WITH LEADING GROWTH DRIVERS

DoD Priorities

Naval Shipbuilding (Columbia Platform is #1 priority), C5ISR, Army Modernization

Technological Trends

Modular Open Systems Approach (MOSA), Cyber, Security, Net-centric Connected Battlefield, Hypersonics, Electrification of Army Vehicles

Increased NATO / FMS Spending

COMMERCIAL AEROSPACE MARKET

OPPORTUNITIES FOR GROWTH BEYOND STRONG OEM FOUNDATION

BROAD & RELEVANT PRODUCT PORTFOLIO

**Strong Presence on Majority of
Commercial Aircraft Programs**

90% OEM / 10% Aftermarket

Portfolio of Highly Relevant Solutions

*Actuation, High Temp and High
Accuracy Sensors, Surface
Treatment Services, Avionics*

ALIGNED WITH LEADING GROWTH DRIVERS

- Acceleration in Narrowbody
Production through 2025**
- Emerging Platforms**
 - All-Electric Aircraft
 - Advanced Air Mobility
- Technological Trends**
 - Electrification
 - Green Initiatives / Emissions
Reduction
 - Fuel Efficiency

Commercial
Aerospace

POWER & PROCESS MARKET

RENEWING THE CORE & ALIGNING TO NEXT-GEN TECHNOLOGIES

STRONG & RELEVANT PRODUCT PORTFOLIO

Enhancing Power Plant Efficiency And Reliability

Long-standing Aftermarket Presence

Critical Supplier to the World's Safest Commercial Nuclear Reactor

*Reactor Coolant Pumps (RCPs) on
Gen III+ Westinghouse AP1000*

Supporting Next-Gen Solutions

*Advanced Small Modular
Reactors (ASMRs),
Cryogenic Safety Relief Valves*

ALIGNED WITH LEADING GROWTH DRIVERS

Renewed Interest in Commercial Nuclear Power

Increasing Focus on Reducing Carbon
Emissions and Energy Independence

Sustainment of Global Nuclear Operating Reactor Fleet

Global Growth in Gen III+ & Gen IV Projects

Subsea Oil & Gas Pumping Solutions

Cross-market Demand for Critical Valve Technologies

GENERAL INDUSTRIAL MARKET

TECHNOLOGIES THAT ADVANCE CUSTOMER EFFICIENCY, SAFETY AND REDUCED EMISSIONS

WELL-ESTABLISHED MARKET POSITIONS

Broad Portfolio Of Highly-engineered Products & Services
Promoting Efficiency, Safety,
Reduced Emissions & Longevity

Trusted Supplier
*Long & Well-Established
Customer Relations;
“Own the Cab”*

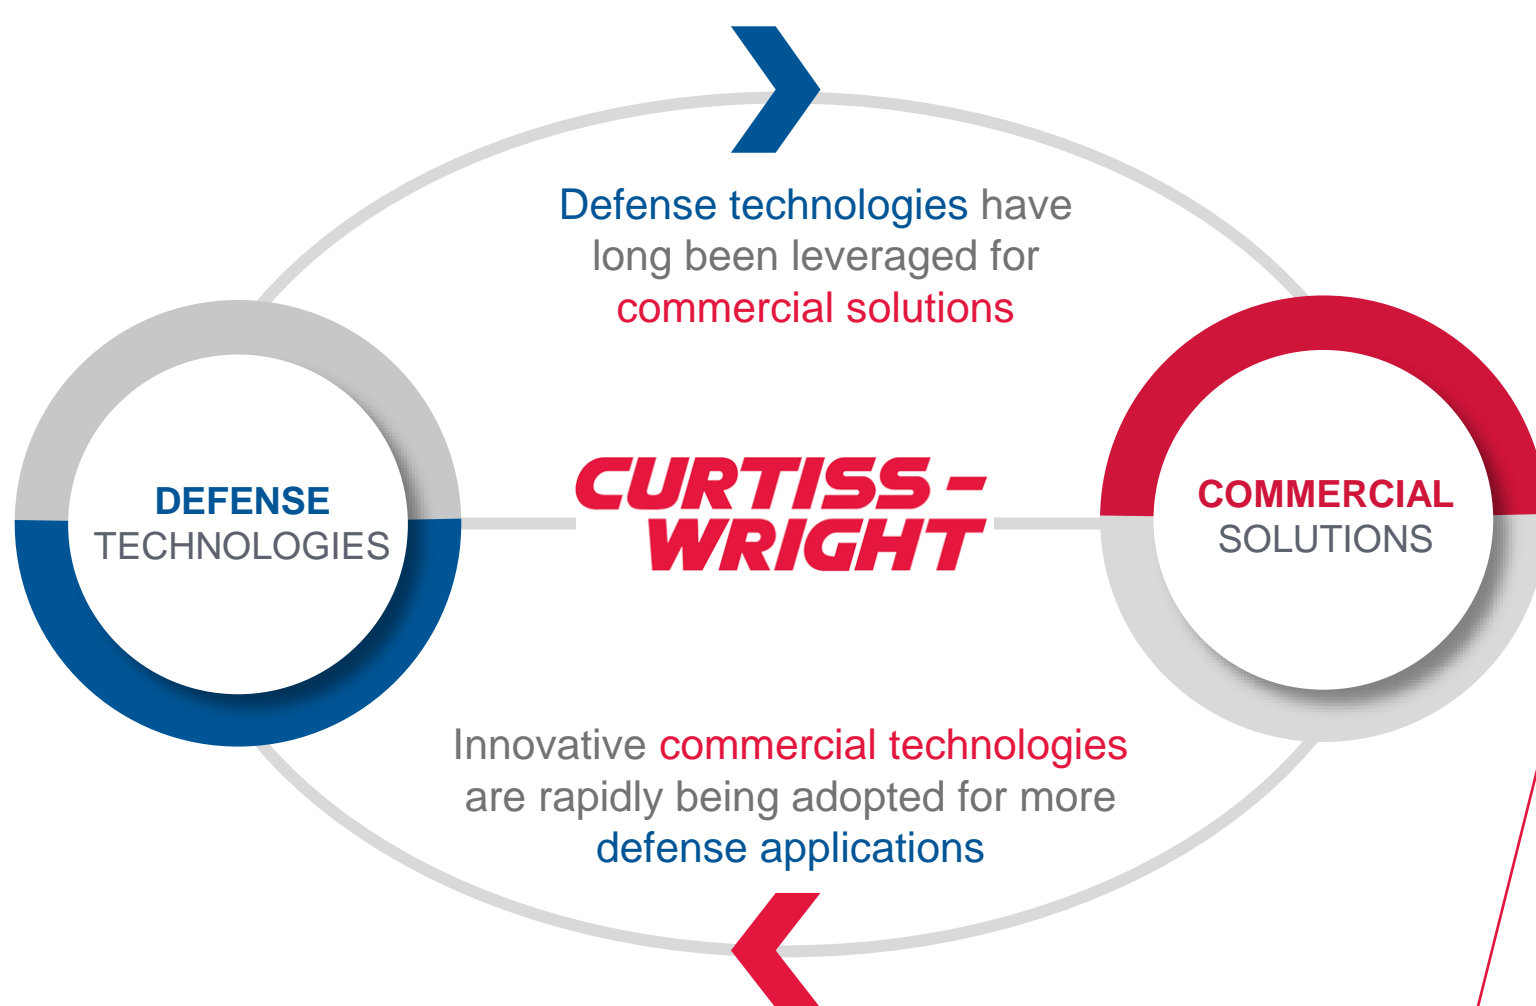

ALIGNED WITH LEADING GROWTH DRIVERS

- Advancing Green Technologies**
Push for Zero / Low-emission Vehicles
Improving Engine Efficiency
Electrification
- Electronification of Vehicle Platforms**
Human Machine Interface (HMI)
Internet of Things (IoT)
- Industrial Automation & Robotics**

THE POWER OF ONE CURTISS-WRIGHT:

Positioned to Leverage Cross-Over Technologies to Accelerate Growth Across the Portfolio

CROSS-OVER TECHNOLOGY EXAMPLES

Industrial Electrification Applied to Commercial Aircraft / Green Aviation

Flight Data & Cockpit Voice Recorders for Defense Applications Used for Commercial Jets

Commercially Developed Surface Treatments to Sustain F-35 Fighter Jets

Industrial and Defense Collaboration on Military Ground Vehicle Electrification

FOCUSED INVESTMENTS TO DRIVE STRONG FINANCIAL PERFORMANCE

Research & Development

Balancing Investments for Short-, Medium-, and Long-Term Growth

- Targeting the fastest growth vectors within our end markets
 - Accelerating pace of investments
 - Corporate funding available for innovation
 - Enhanced corporate oversight
 - Managing engineering resources to maximize profitable growth
- Customer vs. CW-funded

Sales & Marketing

One Curtiss-Wright Market Approach

- Establishing unified customer relationship management (CRM) tool across the corporation
- Building an integrated website
- Great new talent has joined CW over past couple years
- Meaningful investments in business development
- Increasing government relations footprint

Systems & Capacity

Flexibility to Invest in Future Capacity Needs

- Implementing real-time systems to manage business, increase efficiency, drive productivity, and minimize waste
- Investing capital and continuously assessing our preparedness to scale
- Pursuing opportunities for naval industrial base funding

Acquisitions

Strategic Fit Supporting Long-Term Profitable Growth

- Embedded computing capabilities and adjacent technologies
- Major naval safety and propulsion systems
- Commercial Nuclear technologies supporting drive for carbon-free energy
- Drive to electrification (air, land, and sea)

The Art of the Possible

Known AP1000 Opportunity Today¹:

- **12+** plants **48+** pumps (4/plant) = **\$1.5B+** in Europe
- Each plant **\$110M+** over 5-year production cycle

Commercial Nuclear Upside Optionality, on Top of a Strong Core

WHY INVEST WITH US

- 1 Building momentum as we execute our Pivot to Growth strategy
- 2 Advancing key enablers with the right talent, systems, and infrastructure to support organic growth
- 3 Investing in and delivering advanced technologies in attractive end markets
- 4 Driving strong financial performance to achieve all targets, with significant upside optionality in Commercial Nuclear

**CURTISS -
WRIGHT**

APPENDIX

NON-GAAP FINANCIAL INFORMATION

The Corporation supplements its financial information determined under U.S. generally accepted accounting principles (GAAP) with certain non-GAAP financial information. Curtiss-Wright believes that these Adjusted (non-GAAP) measures provide investors with improved transparency in order to better measure Curtiss-Wright's ongoing operating and financial performance and better comparisons of our key financial metrics to our peers. These non-GAAP measures should not be considered in isolation or as a substitute for the related GAAP measures, and other companies may define such measures differently. Curtiss-Wright encourages investors to review its financial statements and publicly filed reports in their entirety and not to rely on any single financial measure. Reconciliations of "Reported" GAAP amounts to "Adjusted" non-GAAP amounts are furnished within the Company's earnings press release.

The following definitions are provided:

Adjusted Operating Income, Operating Margin, Net Earnings and Diluted Earnings per Share (EPS)

These Adjusted financials are defined as Reported Operating Income, Operating Margin, Net Earnings and Diluted Earnings per Share under GAAP excluding: (i) the impact of first year purchase accounting costs associated with acquisitions, specifically one-time inventory step-up, backlog amortization, and transaction costs; (ii) costs associated with the Company's 2024 Restructuring Program; and (iii) the sale or divestiture of a business or product line, as applicable.

Organic Sales and Organic Operating Income

The Corporation discloses organic sales and organic operating income because the Corporation believes it provides investors with insight as to the Company's ongoing business performance. Organic sales and organic operating income are defined as sales and operating income, excluding contributions from acquisitions and results of operations from divested businesses or product lines during the last twelve months, costs associated with the Company's 2024 Restructuring Program, and foreign currency fluctuations.

Free Cash Flow (FCF) and Free Cash Flow Conversion

The Corporation discloses free cash flow because it measures cash flow available for investing and financing activities. Free cash flow represents cash available to repay outstanding debt, invest in the business, acquire businesses, return capital to shareholders and make other strategic investments. Free cash flow is defined as net cash provided by operating activities less capital expenditures. Adjusted free cash flow excludes: (i) payments associated with the Westinghouse legal settlement in both 2022 and 2023; (ii) executive pension payments in 2022; (iii) voluntary contributions to the Company's corporate defined benefit pension plan in 2020; (iv) the cash impact from restructuring in 2020; and (v) a capital investment in a state-of-the-art naval facility in 2020. The Corporation discloses adjusted free cash flow conversion because it measures the proportion of net earnings converted into free cash flow and is defined as adjusted free cash flow divided by adjusted net earnings.

EBITDA

The Corporation discloses EBITDA because it is useful in evaluating the Company's operating performance. EBITDA is defined as net earnings before interest, income taxes, depreciation, and amortization.

Leverage Ratios

Adjusted Net Debt defined as Adjusted Debt less Cash and cash equivalents. Adjusted Net Debt / EBITDA defined as Adjusted Net Debt divided by LTM EBITDA.

2024E END MARKET SALES WATERFALL (as of October 30, 2024)

FY'24 Guidance:
Overall UP 7 - 9%
A&D Markets UP 10 - 12%
Comm'l Markets UP 1 - 3%

Note: Amounts shown for % of Total Sales may not add due to rounding.

- Power & Process market sales concentrated in Naval & Power segment
- General Industrial sales concentrated in Aerospace & Industrial segment

Commercial Nuclear
90% Domestic & Int'l Aftermarket
10% New Build Gen III / Gen IV (Advanced SMRs)

2024 END MARKET SALES GROWTH GUIDANCE (As of October 30, 2024)

Updated (in blue)

(\$ in Millions)	2024E Growth vs 2023 (Prior)	2024E Growth vs 2023 (Current)	2024E % Sales	Key Drivers of 2024 Performance
Aerospace Defense	7% - 9%	9% - 11%	20%	<ul style="list-style-type: none"> Higher defense electronics revenue growth on various C5/ISR programs (helicopters and fighter jets); Higher sales of actuation and sensors equipment
Ground Defense	10% - 12%	10% - 12%	11%	<ul style="list-style-type: none"> Strong revenue growth in tactical communications equipment
Naval Defense	5% - 7%	9% - 11%	26%	<ul style="list-style-type: none"> Higher revenue growth on submarines (Columbia, Virginia and SSN(X)) and CVN-81 aircraft carrier program; Increased sales of aircraft handling equipment (FMS)
Commercial Aerospace	13% - 15%	16% - 18%	12%	<ul style="list-style-type: none"> Higher OEM production (narrowbody/widebody); Increased sales of surface treatment services
